

The Divine New Hampshire Oracle Deck

Created by RynCraft

Before you open this deck, pause. Let breath move in and out until you feel centered. Then speak aloud:

“I fully and completely love and accept myself, and allow the universe to guide my path.”

Each card carries the spirit of place, yet what it whispers to you may differ from what it speaks to me. The reflections offered here are guideposts, not fences — trust your own vision first!

When a card returns again and again, it is no accident. The land repeats itself when it has more to teach. Follow the thread — through research, reflection, or by setting foot on the ground itself.

These cards were born of joy, and my wish is that their presence brings that same joy into your own journey!

With love and light,
Ryn
